

South Molton Community Primary School

No Electricity Day

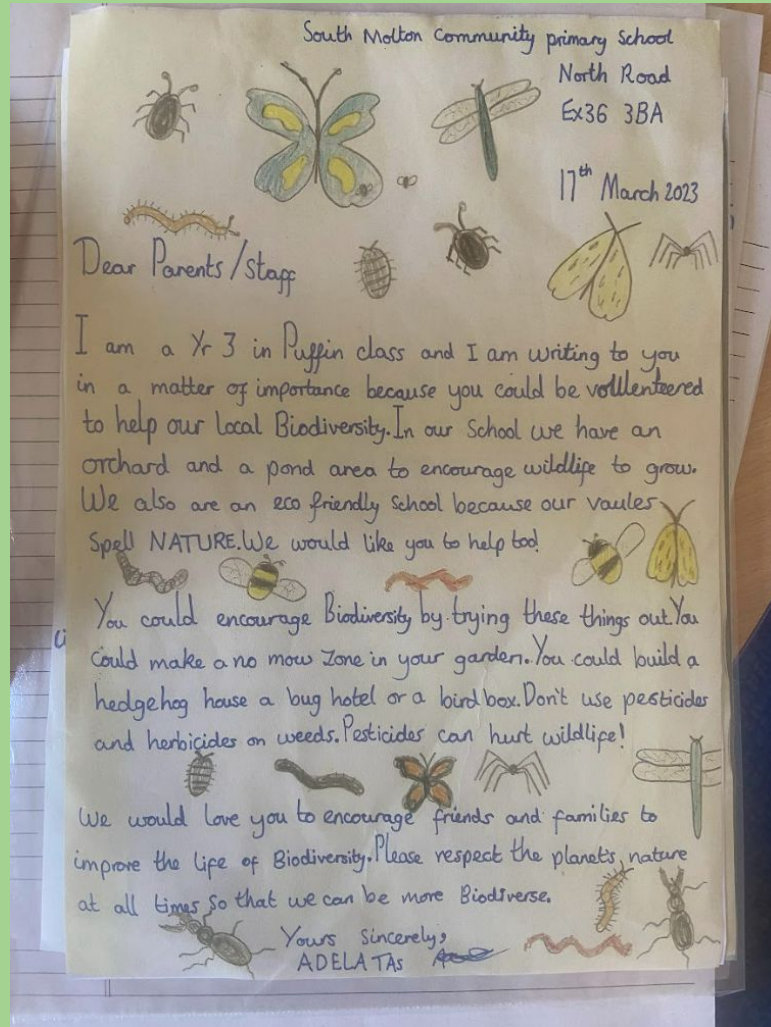

Our Values

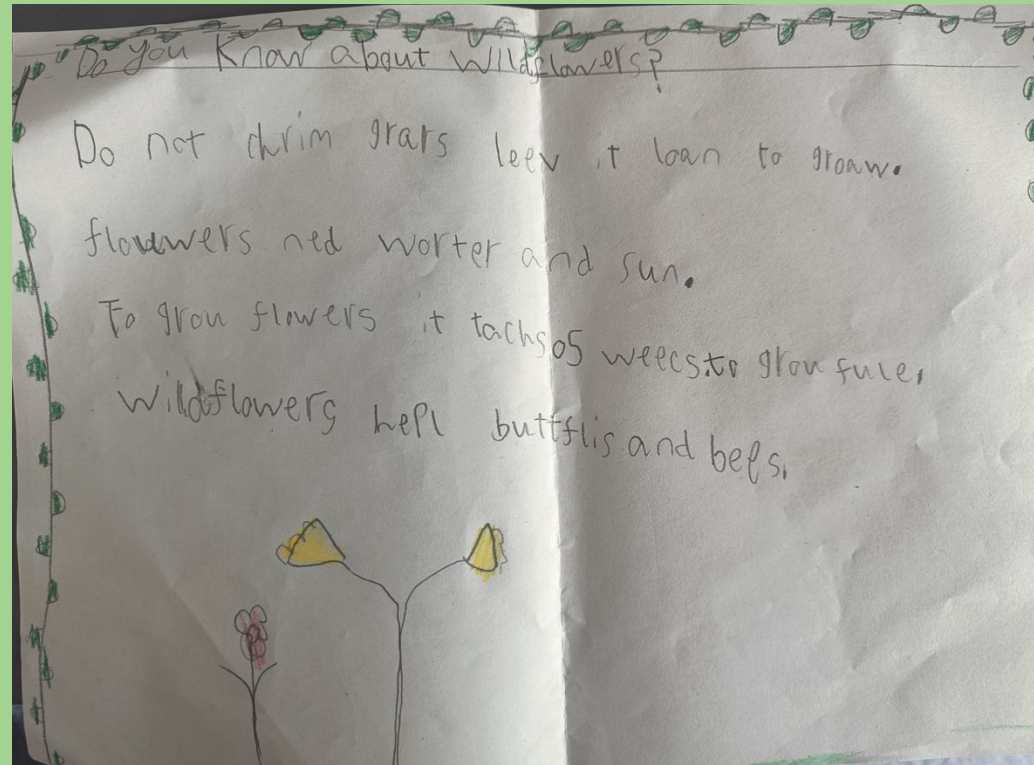

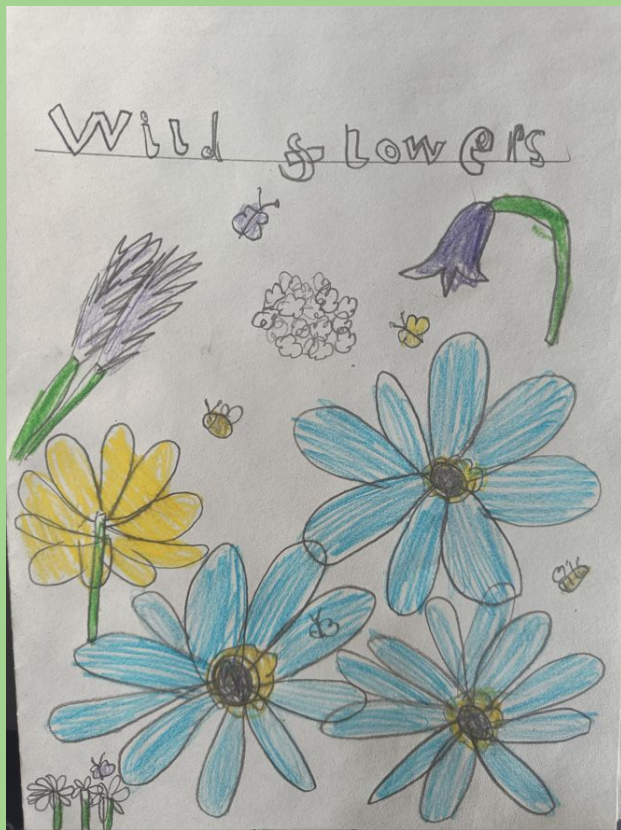

Nurturing
Aspiring
Together
Understanding
Resilience
Equal

We wrote persuasive letters to parents, staff, other schools and the community asking them to be kinder to nature.

Some examples of our wildflower books.

Planting activities in the afternoons.

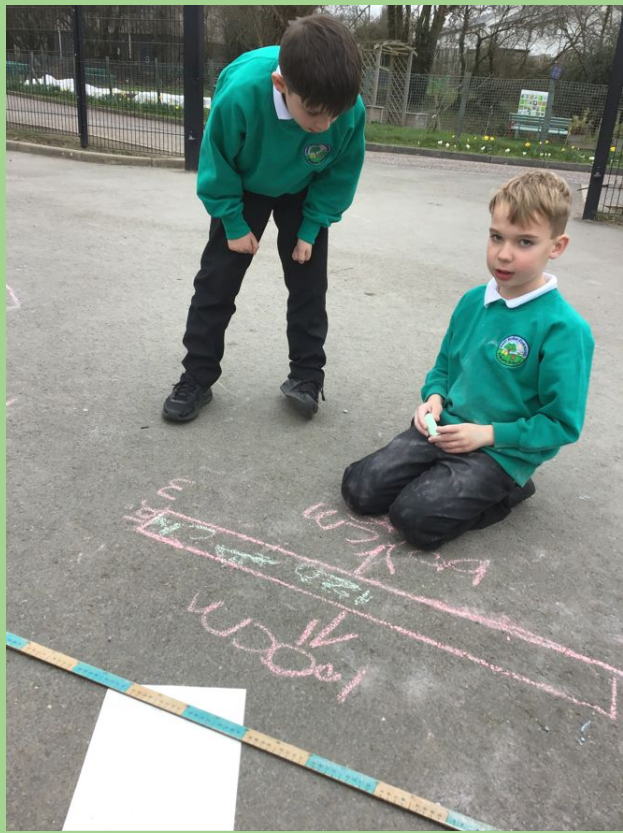

We also use the day to litter pick and tidy up our school outdoor areas.

In the summer we invite parents for a picnic - made with no electricity!

We take learning outdoors to connect with nature.

We hope that this has inspired you to hold your own no electricity day.

Perhaps you could start with just one class not using electricity for a day.

Thank you for listening!
